

FUNDRAISER

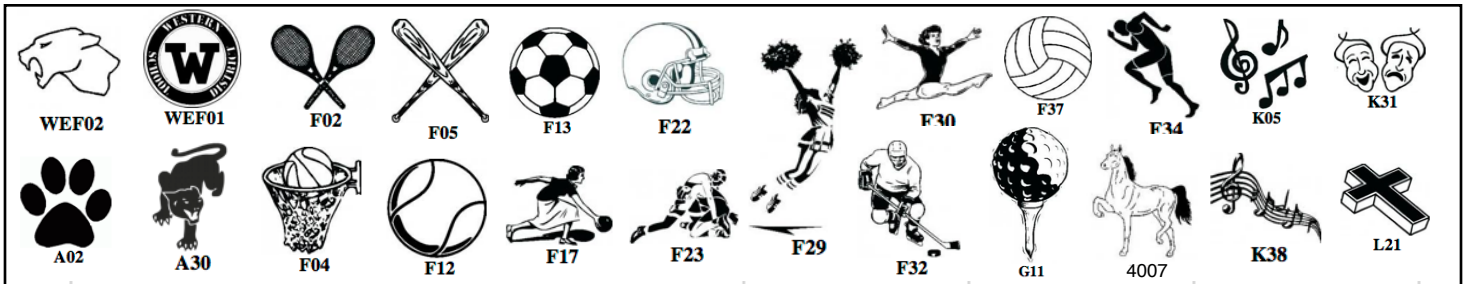

Building a Community of Learners – One Brick At A Time.

The Western Educational Foundation is providing a permanent contribution to the success of our students' education. Your tax-deductible donation provides an opportunity for families to honor student achievements in athletics, academics, arts and other activities. Alumni can be remembered and share in the history of Western. Individuals, families, businesses and organizations can be recognized for their contributions and involvement in the Western Community. These bricks could be a gift or the ideal way to commemorate loved ones, graduations or other special occasions.

Western Educational Foundation endowments are used to finance "above and beyond" school projects not normally supported by the district. Faculty members apply for funds to provide creative equipment, technology or career-oriented activities. These projects are aimed at enhancing the quality of educational opportunities for Western students in grades K-12.

The WEF brick drive is an on-going project. In the initial phase, engraved bricks will be placed in the high school courtyard. *Coming Soon - Spring 2014.*

Order Online at: www.polarengraving.com/WEF or with form

Name:		Email:	
Street Address:		State & Zip Code:
